Leading the way in Scrap Metal Recycling.

www.donjonrecycling.com
History

As World War II drew to a close, a large number of seagoing vessels were retired from service and slated for dismantling and salvage. Donjon’s Staten Island facility began operations to answer that need, and continues in the business of scrapping barges and other vessels to this day. In 2007 Donjon acquired C&M Metals in Dover, NJ (formerly known as Conca & Maviglia). Donjon offers full-service scrap metal recycling for both homeowners and businesses.

Mission Statement

Donjon Recycling is committed to maintaining and expanding our 75-year history of safe and environmentally responsible recycling of metals from household, corporate and construction clients. Our daily goal is to deliver a customer-friendly experience for both consumers and businesses. Regardless of the size or type of project, we are dedicated to managing recycling needs in a way that respects both our customers and our planet.

Why Should You Have Your Scrap Metal Recycled With Us?

> Containers sized for your scrap metal delivered, staged and picked up by our experienced and professional drivers.
> Customer service representatives providing you with timely scheduling and informative answers to your questions.
> Quality transportation equipment and knowledgeable personnel.
> Fully insured, regulatory compliance, accurate weights and settlements.
> Our commitment to providing outstanding service and our decades of experience in exceeding expectations.

Scrap Metal Recycling: Ferrous and Non-Ferrous

Donjon Recycling and C&M Metals Recycling will purchase and recycle all types of scrap iron and metal including:

- Steel scrap
- Appliances
- Aluminum
- Insulated wire
- Cast iron
- Copper and brass
- Stainless steel
- Call about other scrap metal

*Decontaminated marine scrap including metal barges, ferryboats, ships and similar vessels (in NY only).*

Purchasing & Recycling

Our facility has been featured in several films & TV productions:
Donjon Recycling purchases scrap metal from the general public, corporations, industrial manufacturers, scrap dealers, construction / demolition contractors, auto wreckers, and more. Doing business with Donjon is easy! Our services include:

**Scrap Metal Processing:**
- Two convenient locations (Staten Island, NY and Dover, NJ) with modern unloading equipment and convenient hours.
- Scales are State certified and routinely calibrated, ensuring customers’ loads are accurately weighed.
- Quick, convenient payment.
- Dedicated staff, equipment and processing times for large volume accounts.

**Special Services, Call To Discuss:**
- Onsite equipment like mobile cranes and shears for specific reclamation projects and other material handling needs.

**Scrap Management Programs:**
- Onsite containers and scheduled pick-up service.
- Transportation and logistics.
- Barge and Tug Service (when available).

**Bulk and Container Shipment:**
- Access to ports which provide access to global markets.
- Access to major highways, rail and coastal routes throughout North America.
- Experienced operational and logistics teams ensure efficient material handling and delivery.
- Investments in innovative technology produce high quality material.

**Environmental Stewardship:**
- Committed to operating in an environmentally responsible manner.
- Investments in state-of-the-art technologies to maintain air, water and land quality.
- Practice sustainable recycling throughout our facilities, minimizing landfill waste.
- Experienced handling of hazardous and other materials.

The scale is how we weigh the scrap coming into the yard, and ultimately your payment. To be paid for your material, you will need to present a driver’s license or a business card.

The scales are State certified and routinely calibrated, ensuring customers’ loads are accurately weighed. Our outdoor indicators are clearly visible.

When you enter the yard you’ll be greeted by a trained staff member to assist you in determining the types of material you have.

Once determined, you will be directed to the appropriate area of the yard to dispose of the scrap.

After disposing, you will be paid in cash or check at the pay window.

Donjon remains committed to safe, environmentally responsible recycling. Your materials will be handled safely and in compliance with all local, State and Federal regulations.
Settlements are made on the 15th and last day of each month. A settlement may be made by either cash or check. Checks will be mailed, cash will be waiting in the office for pickup.

Pricing is determined according to the market as well as the type of material in the container.

A settlement may be scheduled before the 15th or last day of the month at your request.

Donjon Recycling offers a flexible and reliable container service. Serving Northern New Jersey from our Dover facility and the NYC area from our Staten Island facility, Donjon will provide the correct container on the right schedule for your scrap metal.

Containers are available in 10, 15, 20, 30, 40, and 50 yard sizes. We have closed top containers for security and protection.

Containers can be used for:

- Corporate
- Property management
- Demolition
- Construction

For a custom quote on any commercial project, container service or on-site services, call Donjon Recycling today or visit us at www.donjonrecycling.com!
